A Guide to Prints & Products

*Now that your images have been captured,
here's a guide to help you display them proudly in your home.*

Now what?

We've captured your photos. But now you may be wondering, what comes next? No worries, I've got you!

Your photographs are meant to be seen, enjoyed, and displayed throughout your home, not simply stored on a phone or computer. Let's not let these images live on a hard drive. They deserve to be displayed proudly in your home.

My goal is to help you create artwork that feels personal and fits beautifully within your home and style. Whether your home is modern, farmhouse, rustic, traditional, or somewhere in between, I'm happy to help with product recommendations, sizing suggestions, and display ideas every step of the way.

Feel free to browse this guide to familiarize yourself with the professional prints and products available through your gallery. Pricing is available on my website and through your online gallery, where orders can be placed easily and conveniently.

Classic Prints

Professional photos deserve professional prints. Printed using the latest technologies on high-grade photo paper, these top-quality prints are perfect for all your display and gifting needs.

Details: Printed on Kodak PROFESSIONAL ENDURA Lustre (E) Photo Paper, these professional prints offer the perfect balance between glossy and matte. The semi gloss finish delivers accurate colors, lifelike skin tones, and crisp detail while remaining resistant to glare and fingerprints.

Professional printing ensures your images look exactly as intended with rich color and quality that simply cannot be matched by standard consumer labs.

Best for:

- Traditional homes
- Farmhouse style
- Transitional spaces
- Eclectic décor

Perfect for tabletop frames, albums, gifts, and gallery walls.

Classic prints are a timeless choice whether you are creating a gallery wall, filling frames around your home, gifting portraits to grandparents, or starting albums that will be treasured for generations.

Framed Prints

Classic yet refined, frames provide a timeless solution for image display. Your prints are custom framed and arrive ready to hang with gallery-like quality.

Framed prints are perfect for hallways, staircases, bedrooms, and statement wall displays.

Features:

- Printed on E Surface paper
- Non glare acrylic for protection
- Choice of 2 inch Black or White mat
- Wire hanger or sawtooth depending on size

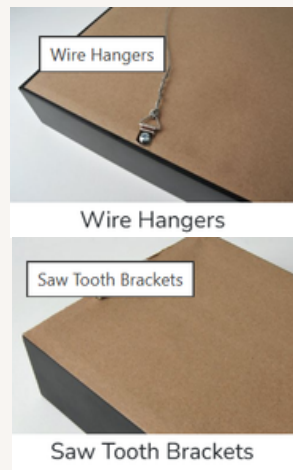

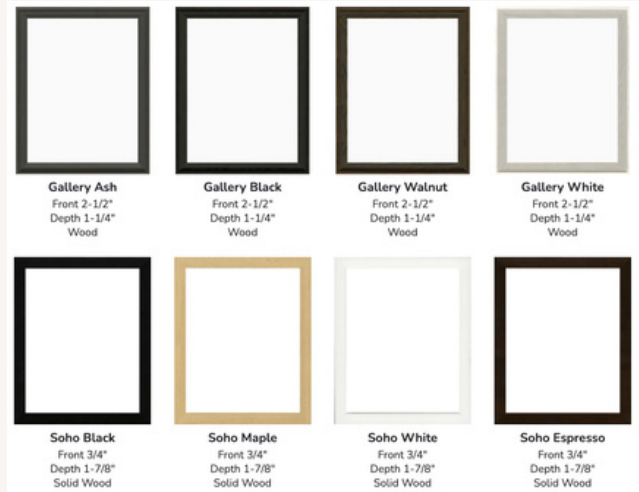

Frame Options:

- Gallery Ash
- Gallery Black
- Gallery Walnut
- Gallery White
- Soho Black
- Soho Maple
- Soho White

Best for:

- Traditional homes
- Modern homes

- Transitional spaces

Please note: frame or mat covers approximately 1/4 inch around the edge. Please include frame and mat preferences in your order comments.

Gallery Wrapped Canvas

Nothing transforms portraits into statement artwork quite like a Canvas Gallery Wrap. Printed on premium archival canvas and wrapped around a sturdy stretcher frame, these pieces create a clean and timeless display. Canvas wraps create warmth and softness through their subtle texture and matte finish.

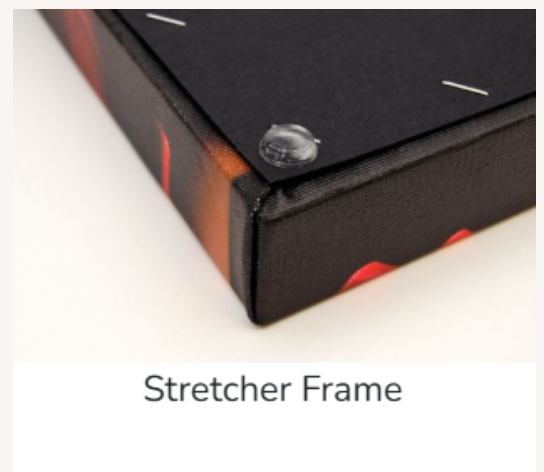

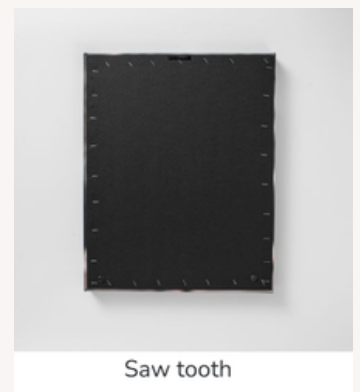

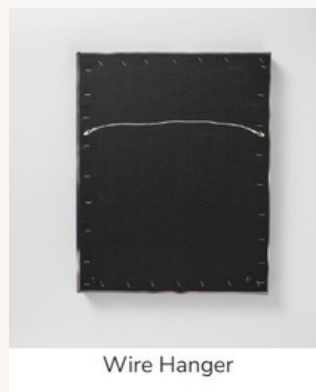

Features:

- White poly cotton blend canvas
- 400 gsm premium weight
- Wrapped around a 1.5 inch stretcher frame
- Durable black backing
- Ready to hang
- Standard archival quality of 100 years

Best for:

- Farmhouse homes
- Rustic homes
- Traditional homes
- Coastal interiors
- Warm transitional spaces

Perfect over fireplaces, above beds, and large focal walls.

Canvas with Float Frame

For families who love the timeless feel of canvas but want an elevated, finished look, Canvas with Float Frames offer the best of both worlds. The float frame creates a designer inspired presentation with a small gap surrounding the canvas for a custom gallery appearance.

Features:

- Premium archival canvas
- 1.5 inch stretcher frame
- Durable backing
- Ready to hang
- Standard archival quality of 100 years

Available Colors:

- Black
- White
- Oxford Brown

Best for:

- Modern farmhouse homes
- Contemporary spaces
- Transitional homes
- Rustic homes with cleaner lines

Please include frame color in your order comments.

Metal Prints

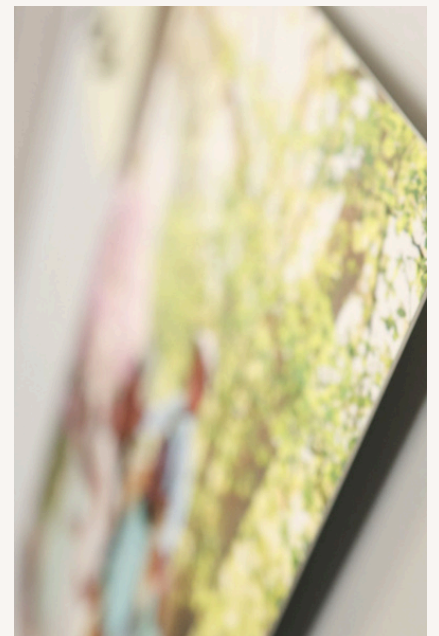

Metal prints offer a vibrant, durable display option with crystal clear detail and striking color. Printed on a smooth white metal surface, colors remain rich and true with no visible metal texture showing through.

Details: A metal print starts with a piece of metal where the corners are rounded. It is first printed with a white coating and then the image is printed on top of that so as to not take away the colors of the image.

Best for:

- Contemporary homes
- Modern interiors
- Industrial spaces
- Offices and lofts

It can come with a foam float block on the back (my preference) so it sits out a bit from the wall to give it a 3-D effect when displaying. Otherwise they come just as a plain metal sheet that you'd want to set on an easel (not included). Only the 5x7 size has an attached easel for display.

Acrylic Wall Art

Acrylic Wall Art creates a bold, modern statement with incredible depth and vibrancy. Images are mounted to polished plexiglass producing a luminous, dimensional effect.

Details:

Acrylic Prints are beautiful Fine Art Prints face-mounted to plexiglass with polished edges. Acrylic's clarity and substantial feel is an impressive way to elevate your images and display your photos as artwork. The 3D luminosity of the polished surface brings the image to life with vibrant colors and depth.

Features:

- 1/4 inch acrylic thickness
- Polished edges
- White backing
- Cleat hanger included

Best for:

- Modern homes
- Contemporary interiors
- Minimalist spaces
- Industrial style homes

Photo Books

There's something special about holding your memories in your hands. Photo books allow you to tell the full story of your session rather than choosing just a few favorite images. From newborn snuggles and family connections to milestone moments and yearly portraits, albums preserve your memories in a way that can be enjoyed again and again.

Photo books are one of the easiest ways to ensure your images do not simply live on a phone or hard drive. Leave them on a coffee table, display them on bookshelves, or pull them out during family gatherings and let your children relive their memories for years to come.
